INDEX

Key to Index

Authors are indexed first in a separate list.

Subjects and titles are listed together alphabetically, although titles are distinguished by italics.

Books reviewed are listed under "Books"; items relating to the library such as bibliographies, films, and books are listed under "Library" under Texas Medical Association.

In addition, most items which concern Texas Medical Association and American Medical Association are indexed under the respective category. "Drug Notes" and "Medicolegal Notes" are listed under those headings. Deceased physicians are listed alphabetically under "Deaths" following the D's.
